

HENRI HAUKKOVAARA

Marketing & Ecommerce Specialist | CRO, Multilingual Localization & AI-Assisted Workflows
Helsinki, Finland | 050 518 0762 | henri.haukkovaara@gmail.com | linkedin.com/in/henri-haukkovaara | henri.hithitpull.fi

PROFESSIONAL SUMMARY

Marketing and ecommerce specialist with 6+ years of hands-on experience across conversion optimization, customer lifecycle marketing, and international commercial operations. Owns the full loop: identifies the development need, defines what to build and where, and takes it to production independently without a separate implementer. Built four production AI and automation tools at AQVA; AI-assisted workflows are part of daily practice. Genuinely trilingual in Finnish, French, and English — a rare combination applied to marketing localization and international market expansion. Cross-functional leadership experience as Executive Director of a EUR 1M+ organization. Multiple European Championship titles as an elite athlete. BBA in Marketing, Aalto University School of Business.

WORK EXPERIENCE

E-Commerce Specialist 2025 – Present
AQVA, Helsinki

- Built a Google Search Console reporting and automation system across 5 domains, turning scattered organic search data into one consistent decision-making view and revealing how AI-driven discovery is shifting search behavior.
- Built three further production AI and automation tools: a CS ticket data pipeline as the training and resource foundation for a RAG chatbot, an ERP workflow automation, and a data scraper — replacing manual processes with scalable workflows.
- Analyze purchase funnel and customer behavior in GA4 to identify drop-off points, define target segments, and prioritize conversion initiatives by commercial impact.
- Contributed to Klaviyo platform migration planning: provided input on integration architecture and customer lifecycle process design.

Marketing & E-Commerce Specialist 2018 – 2021
Sportiro Oy, Helsinki

- Analyzed B2C user behavior across the digital customer journey using GA4 and Google Search Console, identifying drop-off patterns and forming and testing CRO hypotheses on product pages, navigation, and purchase funnel.
- Owned email marketing end-to-end using Mailchimp: built customer segments, planned lifecycle flows and campaigns, tracked performance, and connected email activity to downstream conversion.
- Managed Google Ads and Meta Ads campaigns with continuous cost-per-acquisition tracking, structured audience segmentation, and iterative testing of angles and campaign structures.
- Led end-to-end Shopify platform migration and drove international market expansion, growing sales across multiple European markets from near zero through localized content, delivery logistics, and channel strategy.

Executive Director 2022 – 2024
Helsinki Athletics Cheerleaders HAC ry, Helsinki

- Managed full organizational operations including a EUR 1M+ annual budget and cross-functional coordination of staff, board, and external partners.
- Stabilized the club from financial crisis: built a cash flow tracking system, restructured the budget model, and moved to monthly member payments — turning a volatile income stream into a predictable one.

Head of Coaching | Professional Coach 2021 – 2022
Helsinki Athletics Cheerleaders HAC ry, Helsinki

- Introduced data-driven performance tracking and systematic evaluation frameworks across coaching staff and athlete development programmes.
- Managed coaching staff and coordinated training planning across multiple athlete groups.

Entrepreneur 2014 – Present
Hit Hit Pull

Independent coaching and music production business: client management, project delivery, and commercial operations.

SELECTED PROJECT

MM 2026 Veikkaajat (2026): Full-stack score prediction web app built solo in under one day, live with real users throughout the ongoing FIFA World Cup. Built with Next.js, TypeScript, Supabase, scheduled edge functions with automated API data polling, and a Telegram bot delivering personalized automated messaging. Demonstrates execution speed and AI-assisted building in practice.

SKILLS

Ecommerce & CRO: Conversion rate optimization, purchase funnel analysis, A/B testing, digital merchandising, Shopify (incl. migration leadership), WooCommerce, customer behavior analysis

Lifecycle & Email Marketing: Customer segmentation, lifecycle program design, campaign planning and execution, Mailchimp (hands-on), Klaviyo (migration planning and lifecycle architecture), contact strategy

Analytics & Measurement: Google Analytics 4 (GA4), Google Search Console, KPI framework design, funnel analysis, custom reporting built from raw data

Paid Channels: Google Ads, Meta Ads, TikTok Ads, cost-per-acquisition tracking, audience segmentation, iterative campaign testing
